Medical Resource Programs

Medical Equipment and Supplies

Durable medical equipment is loaned for as long as it is needed, and one-time use supplies can be re-ordered monthly for consumers who qualify. If consumers do not qualify because their monthly income is too high, they may enroll in Club CARE Chest for an annual \$50 membership.

Prescription Assistance

CARE Chest provides up to \$300 per consumer annually to pay for prescription medication or to help with co-pays.

Diabetic Supplies

CARE Chest's Diabetic Supplies program distributes testing supplies, including blood-glucose monitors, test strips, syringes and lancets. Supplies are available on a monthly basis with a prescription.

Medical Nutrition

CARE Chest provides doctor-prescribed supplemental medical nutrition such as: Glucerna, Ensure, and Pediasure.

Independent Living & CARE Loans

CARE Chest provides assistive technology and helps individuals make modifications to their home and vehicle for accessibility. CARE Chest also administers a low-interest loan program to fund similar projects. Both of these programs serve the entire State of Nevada.
